# the Heatlie HOTBOX

## THE PERFECT PARTNER FOR SERIOUS CATERERS

Catering for a large crowd? Look no further than the Heatlie HotBox.

The Heatlie Professional series includes some of the toughest catering equipment anywhere in the world. Designed and manufactured in South Australia since 1983 by dedicated Heatlie Engineers.

The Heatlie Hotbox is the ideal warming cupboard for any commercial environment. Designed specifically for hire and catering industries, the HotBox is gas powered and completely mobile. The Heatlie Ribbon Burner System produces even heat with maximum energy efficiency, so the Heatlie HotBox performs like no other warming cupboard available in Australia and will add real value to your business.

With its huge capacity and energy efficient design, the Heatlie HotBox allows you to keep large quantities of food at the right temperature until you are ready to serve.

Available in 6 shelf and 9 shelf models, additional shelves can be purchased to convert these units to 12 shelf and 17 shelf models respectively.

Whatever food you need to keep warm, the Heatlie HotBox will do it for you.

**It's no wonder the Heatlie HotBox is the professionals' choice.**

*Experts agree...*

*"The Heatlie HotBox has enabled us to say yes to more functions in more locations. We have real peace of mind that our food is always being kept at the right temperature. It is incredibly easy to keep clean & transport... The Heatlie HotBox is a valuable asset for our business"*

*P. Krog, Caterer, SA*
